Subject: RE: Spreadsheet?

Stef, I need to get Ellen's permission to share the spreadsheet, as it is a NYSERDA work product. Unfortunately, Ellen's dad died, and she is out of the office this week, so I can't get an answer for at least a week. For EPA purposes, I think that our spreadsheets may require a few modifications for ASTM 2515 checks. I could schedule a webcast this week to show you the spreadsheets, so you know what is coming and what may need to be modified. Would that be helpful?

Subject: Spreadsheet?

Lisa,

I have been thinking, and usually that's a double edged sword but I had an idea that I thought I'd ask you about.

As NESCAUM has already shared their wood heater compliance review spreadsheet with Rafael Sanchez, might you be willing to share that same spreadsheet with Theresa Lowe to aid her build of the ERT data validation module?

I believe that Theresa would find that useful, and implementing that would also aid Rafael in the longer term.

Thanks for considering this,

Stef
